

TURBOMACHINERY & PUMP SYMPOSIA | HOUSTON, TX

SEPTEMBER 26-28, 2023

SHORT COURSES: SEPTEMBER 25, 2023

EVENT PROSPECTUS

FOR THE **INDUSTRY**. BY THE **INDUSTRY**.

HAND-PICKED PROGRAM

The program is hand-picked by advisory committees of recognized leaders in the turbomachinery and pump communities. It is led by highly-respected practitioners and pioneers in their fields. Topics include maintenance, reliability, troubleshooting and instruction on emerging designs, technology, and best practices that include case studies with real-world relevance on problems solved and lessons learned.

"The number of attendees surpassed my expectations but it was also the level of people who came that was impressive. From company founders to plant personnel, the people we needed to reach were there. Past and hopefully, future clients, were engaging and interested in what was being presented. I would highly recommend participation to this event."

Electrical Engineer, Shaft Current Solutions
dba Sohre Turbomachinery

COURSE TYPES

Short Course - Full-day training sessions presented on the first day of the Symposia

Lecture - Presentation of a technical paper detailing emerging technology

Tutorial - a 90-minute mini short course/workshop

Discussion Group - a forum in which industry leaders and delegates participate together to share topical problems, solutions, and best practices

Case Study - a short presentation describing the successful implementation of established technology to solve a real-world problem

**Exhibitors receive two badges per 10X10 booth space that grant access to the technical program*

PUMP

Sessions offered in 2022

- Pump Cavitation - Physics, Prediction, Control, Troubleshooting
- An End-User's Guide to Centrifugal Pump Rotordynamics
- Thermo-Structural Analysis Of Steam Tracing Arrangements Applied To Pump Barrels

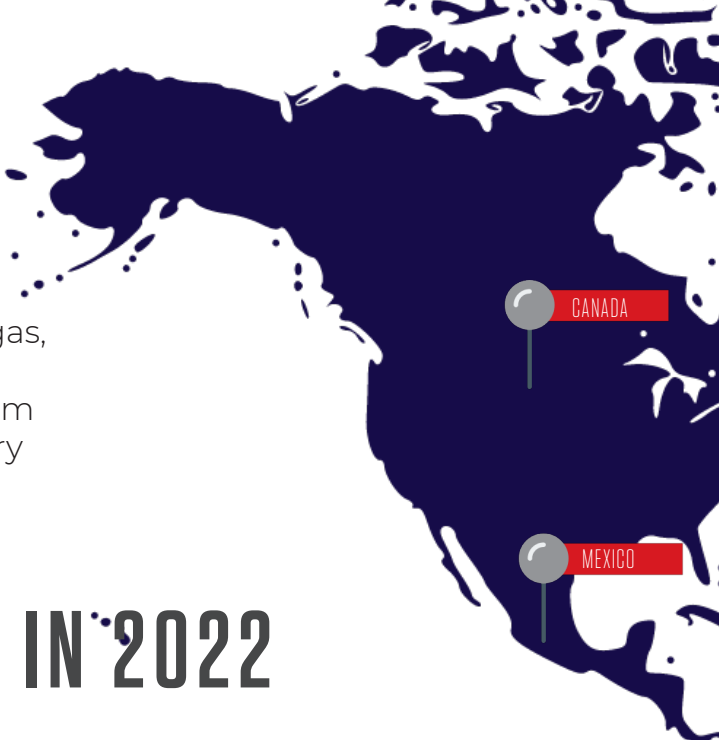

TURBO

Sessions offered in 2022

- An Objective Way To Account For Unbalance Vibration In Measured Rotor-Dynamic Data
- Measurement And Calculation Of A Self-Equalized Tilting-Pad Thrust Bearing Under Static Misalignment
- Compression Turbomachinery For The Decarbonizing World

GLOBAL IMPACT

The Turbomachinery and Pump Symposia (TPS) is a vital industry event, offering a forum for the exchange of ideas between rotating equipment engineers and technicians worldwide. Now surpassing 51 years, TPS is known for its impact on turbomachinery, pump, oil & gas, petrochemical, power, aerospace, chemical, and water industries through two pathways: the technical program and exhibition. TPS is organized by the Turbomachinery Laboratory at Texas A&M University.

INTERNATIONAL EXHIBITION

"TPS is the place to go for networking opportunities in the Turbomachinery space. It's clear how important it is to help people keep updated with the latest innovations and to spot developing trends. It's an essential resource."

Tim Lukac, Editor, Turbomachinery International

EXHIBITOR BENEFITS

- Company listing in the Show Guide
- Company listing and website link on tps.tamu.edu.
- List of attendee names and email address (of those who have opted in)
- Two FREE Exhibitor (EXH) badges which include:
 - Access to all technical sessions and the exhibit hall
 - Early access to the exhibit hall: 8 a.m. Tuesday - Thursday
 - Provided lunch on Tuesday and Wednesday
 - Provided dinner on Tuesday and Wednesday at the Hilton Ballroom of Americas
- Show attendee bag
- Immediate access to proceedings
- Option to purchase Exhibit Area Only Badges (EAO)
 - May be purchased for \$200 per badge, if purchased prior to August 31, 2023. After this deadline, price increases to \$300.
 - Each EAO badge includes provided lunch and dinner on Tuesday & Wednesday

TAKE IT FROM THE ATTENDEES...

"The breadth of knowledge here is incredible, both from a vendor side and from an attendee side. A great place to learn about new technology and discover how to work better with existing technology."

Blake Pilling, Process Engineer, Carbon Engineering

OTHER WAYS TO CONNECT AT TPS

SPONSORSHIP ITEMS

Being an exhibiting company has its perks - one of which is the option to become a collateral sponsor of the event. Lanyards, pens, coffee stations, and signage are some of the potential options for sponsorships.

INNOVATION PRESENTS STAGE

The Innovation Presents Stage is a great way to feature a new product, highlight positions for which you are recruiting, and discuss new technology. Companies must be an exhibitor to be eligible for a time slot.

BOOTH DETAILS

- \$3,500 per 10'x10' booth space. Several configurations are available.
- Exhibit space is equipped with:
 - 8' tall back drape
 - 3' tall side dividers
 - Standard two-line 7"x44" sign indicating company name and booth number
- See Rules & Regulations for guidelines on assembling an acceptable booth.

Furnishings, carpet, electricity and other amenities are available for additional fees through appointed service providers.
